LABA
VALENCIA

SCHOOL OF ART
DESIGN
& NEW MEDIA

We invite you to submit your pieces to participate in the exhibition we are organising as part of the **Festival 10 Sentidos**, the 13th edition of which will be held in Valencia in May 2024 under the theme **Cities and Fantasy**.

The exhibition of the students of **LABA Valencia**, under the title '**Miradas y recorridos íntimos**', proposes to explore the city through different perspectives. Come and immerse yourself in a deeper and more honest representation of the city. The pieces we ask for in this call can contain anything from photographs, motion graphics, illustrations, mixed media, 3D, to videos that reflect your own visions of the city.

This is not just a visual tribute, but a space to explore the concepts that define your individual experience.

The exhibition will be held in **LAS NAVES**,
in May 2024, in the framework of
Festival 10 Sentidos

How to participate?

Each LABA Valencia student may submit one or more pieces. Each piece must respond to one of the following themes:

tribute to the city

Abstract photography, architecture, detail, light and shadow. This section highlights photographs or videos that capture abstract architectural elements in urban environments. The images focus on lines, shapes and patterns found in iconic buildings, exploring the abstract essence of architecture.

sensorial city

To walk through the streets is to immerse oneself in a whole sensory world. Each step awakens a symphony of urban sounds and perceptions: the murmur of the city, the hum of cars, street lights or birdsong. Together, these sound, visual and physical experiences transform the simple act of walking into a unique sensory adventure.

corners of fear

Trajectories that produce a sense of fear, distortions of space, dark areas. The architecture is diverted through unusual angles and perspectives that generate atmospheres that are sometimes disturbing. Through digitally altered images or in the presentation of urban spaces that, in themselves, generate a sense of bewilderment; where the scarce lighting creates hidden and unknown spaces. Exploring the fears of each person in the city through narrow streets, unknown urban areas

Valencia: green city

Valencia invites you to celebrate another important recognition of the city's commitment to sustainability: its election as European Green Capital 2024.

Celebrate the green spaces that embrace Valencia. From its squares, its wide urban parks to its orchards. Valencia has presented itself over the decades as a city committed to green spaces that inspire and rejuvenate. We seek to celebrate the ecosystem of Valencia, the city we inhabit.

the traces of art

Finding art on the floors and paths of the city. To discover bits of art that accompanies us, mute, in our daily walks.
